

# ENVIRONMENTAL POLICY

## ACCREDITATIONS | ENVIRONMENT

Formed in 1993 **Australian Workstation Manufacturers** has quickly grown into one of Australia's leading commercial office furniture companies.

Named in 2008 as one of **BRW's** fastest growing companies. We are Commercial Furniture experts with a strong and dynamic team.

In addition to the 5,000sqm manufacturing facility in **Sydney, Melbourne** showroom opened in 2014. This provides a base for our Victorian clientele, complete with AWM's workstations and screens showcasing AWM's potential to provide the complete package; including joinery, kitchen's, seating, meeting and boardroom, receptions and storage.

We are very conscious of the environment and pride ourselves in always looking for Greener ways to manufacture whether it is product design or material purchasing. Our factory and showroom in Sydney has earned **ISO14001 accreditation**, which endorses our complete environmental management system, focusing on recycling and reusing.

All of our workstations and screen systems are 95% recyclable and due to the huge aluminium component they will never end up as land fill.

## OUR CONTINUED OBJECTIVES ARE |

- Compliance with international environmental laws and regulation
- Compliance with Industry Green Star requirements
- Reducing our energy and waste consumption
- Reducing, reusing and recycling at all sites through our recycling program
- Setting and continually improving environmental objectives and targets to assist us in reducing our environmental impacts
- Commitment to prevent and minimize pollution

Our company commitment to maintain and operate in accordance with the Australian Standard AS/NZ ISO14001: 2004 Environmental Management System. We commit to the maintenance of our GECA – Good Environmental Choice Australia Level B Certification on F2, F3, F5, Alto and Monorail systems.
